RE: Victoria Hall

To Whom It May Concern:

I have worked with Victoria Hall for the past two years, and I have closely observed the progress and quality of her work. Victoria is an excellent research nurse. She has been working as a site coordinator of our VA multicenter study of computerized exercise ECG and quantitative angiography. This required how to master DOS, learn to use the equipment and to recruit patients. She was always competent and creative. The data she forwarded us as always of the highest quality. Victoria is the type of person who finds research as more than a job and puts special effort into it. I highly recommend her to you.

Sincerely,

A handwritten signature in blue ink, appearing to read "V. Froelicher".

Victor F. Froelicher, M.D.
Clinical Professor of Medicine
Cardiology Section
