Responses: [VS] Very satisfied=5 [SS] Somewhat satisfied=4 [NSN] Neither satisfied nor dissatisfied=3 [SD] Somewhat dissatisfied=2 [VD] Very dissatisfied=1

Q2 - What did you like about the course (e.g., course navigation, course activities and assignments, course materials, etc.)?

Response Rate: 83.33% (10 of 12)

1	course activities, assignments
2	This class was very organized and easy to navigate. Professor Brahe always had a great communication and the assignments were well structured and easy to follow.
3	No Comments - Nothing
4	Matierals felt related to our assignments in our nursing courses.
5	I really enjoyed the creative approach of the Critical Thinking course. The assignments and activities challenged me to think outside the box, which made the learning experience engaging and meaningful. The course navigation was intuitive, and the materials were well-organized, making it easy to stay on track. Additionally, the professor was incredibly responsive and always took the time to answer questions thoroughly, which I greatly appreciated.
6	I liked the activities we did as well as the subjects that we covered. I thought they were very interested and kept me engaged.
7	I liked that the professor was responsive. She clarified any questions I had.
8	I like the challenge of learning APA format in such detail.
9	Everything about the course was good to me, all course resources, assignments and course material was easy to navigate through. I really appreciated the weekly/daily schedule for assignments and due date it helped me stay organized and not feel all over the place.
10	Amazing and very well organized. Love the examples and feedback.

Q3 - What did you dislike about the course (e.g., course navigation, course activities and assignments, course materials, etc.)?

Response Rate: 83.33% (10 of 12)

1	none
2	While I enjoyed the course overall, I felt that it was too short to fully explore critical thinking in depth. I wish it had included more focus on applying critical thinking skills specifically to the Fundamentals class. Fundamentals can be quite challenging, especially for students who may not have the same science background, and more integration of critical thinking into that context would have been extremely helpful
3	Nothing, great as is.
4	I submit that this course was an enormous waste of time and nothing more than a lackluster "filler". This course offered no value as students entering the nursing program should already have demonstrated our abilities to think critically. Many students have prior degrees or extensive college education prior to starting the nursing program; it baffles me to think that TESU does not believe that its students can think critically at this level of academia.
5	I had no dislikes about the course.
6	I felt like this was just a filler course and felt like more of busy work than anything.
7	I do wish that we had another Care Plan assignment, just so that I could practice.
8	I did not like the format of the final course evaluation. I feel like we could have done the course evaluation in a different format with different questions because I was slightly confused and had trouble writing my thoughts and feelings.
9	I absolutely loved this class and everything I learned. There was nothing I dislike about this course.
10	Don't like moodle at all so navigation on any course will be terrible.

Q2 - Please provide feedback about why you gave the mentor this rating.

Faculty: Victoria Brahe

Response Rate: 83.33% (10 of 12)

1	Very informative teaching, I appreciated the way of teaching where you let a student show you what they are capable of and then you help structure their usual work into a formal work by a simple way. I learned a lot from professor Brahe, especially when it come to writing which I have always struggled with.
2	Tough grader but overall gives helpful feedback and is encouraging as a professor.
3	The mentor was great!
4	Professor Brahe was absolutely fantastic. She was engaged, always commented on our posts, and maintained a positive attitude throughout the entire course. She always had something nice to say about our posts and always gave constructive criticism. Thank you professor!
5	Learned a lot from the professor.She is very passionate by her teaching and always provided a great feedback on how to correct errors on our APA assignment.
6	I think that Dr. Brahe was very kind, compassionate and personable. She as timely and very invested in her students.
7	I give my mentor this rating because she was very organized and always had a great communication. I never felt lost, as the weekly announcements were always clear and organized. Her feedback on my assignments was extremely helpful, Allowing me not only to learn the material but also to truly enjoy the course. I hope to have Professor Brahe again in the future. Thank you for not only teaching but for showing your passion for what you do.
8	Dr. Brahe was incredible and I enjoyed the time with her.
9	Dr. Brahe was incredibly supportive throughout the course. She was always approachable, provided clear guidance, and ensured that any questions or concerns were addressed promptly. Her encouragement and responsiveness made a significant positive impact on my learning experience
10	Amazing and very professional and an amazing and supportive mentor.
