Q2 - What did you like about the course (e.g., course navigation, course activities and assignments, course materials, etc.)?

Response Rate: 92.86% (13 of 14)

1	this course really helps me to learn about nursing in a creative way.
2	The refresher work on APA format.
3	The course was well organized and Dr. Brahe had clear expectations. I thought he provided more than enough resources and found her to be insightful and helpful in her critiques.
4	The course was one of the easier courses to navigate. The assignments were to the point and I learned a lot.
5	The course was very engaging. It required you to think about bit differently than other courses I have taken. I thought the course was interesting.
6	I like the course activities, concept maps and the discussions
7	I liked the assignments, I thought they were engaging and interesting.
8	I liked that this course challenged me to revisit proper writing techniques. I have not done this kind of work in a long time, and I think it helped me develop a better understanding of proper citation and APA formatting, which is important to understand and use throughout the program. I enjoyed creating a concept map, as I think this is a great tool to organize knowledge. I also enjoyed creating a nursing care plan because it was a great introduction into what we will be doing daily for our patients.
9	I like how the professor was very detailed in course expectations and weekly assignments. As well as the course activities related greatly to the lessons
10	Course material
11	Course activities and assignments
12	Copurse activity and assignment
13	Assignments well explained

Q3 - What did you dislike about the course (e.g., course navigation, course activities and assignments, course materials, etc.)?

Response Rate: 92.86% (13 of 14)

1	the Copyleakes really scared me.
2	nothing!
3	moodle navigation
4	course navigation
5	The material was good and class was interesting. The concept map was different and easy to do as well as the APA assignments.
6	The confusion on how to navigate the content, due dates, where to upload.
7	None
8	No dislikes
9	N/A
10	Moodle is a new platform for me and even after getting to know its interface better, it is still not my favorite learning center. I don't find it particularly user friendly or aesthetically pleasing. Other than that, I have no complaints about the course and certainly no complaints in regards to Dr. Brahe.
11	Moodle is challenging to utilize
12	I think because this course is so accelerated there should be less assignments to do and more teaching. Less assignments will also provide the students with more time to study for exams. When you have so many assignments due you're not really grasping information from them you're just trying to get the assignment done so that you can go and study and there's minimal time because there's so many assignments.
13	I agree the APA revision was very important, however I had concerns about using the Online Tutoring Service. This dislike is less about the course, and more about this specific service. With my first revision, I received my paper back with very thorough input from the tutoring service. However, I resubmitted my paper a second time and asked specifically for help with APA formatting and grammar. The tutor focused minimally on these aspects, but rather had little input regarding other things within my work. I did not even use the advice of the second tutor. I worry that when other classmates sent in their paper they did not receive the initial thorough input that I received, but rather minimal effort from the tutoring service (that I experienced the second time I submitted my work). Again, this dislike is not really regarding the course, but rather the Online Tutoring Service's inconsistencies.

Q2 - Please provide feedback about why you gave the mentor this rating.

Faculty: Victoria Brahe

Response Rate: 92.86% (13 of 14)

1	The mentor is very knowledgeable and eloquent. She is one of a kind, and has good sense of judgment. She gave us a lot of useful resources, and truly wants everyone to be successful.
2	The mentor gave an unbiased assessment on how to complete the assignments.
3	She is an awesome professor. Very responsive!
4	Provides very insight feedback
5	Provided great feedback, was always positive and encouraging!
6	Professor Brahe is very helpful and understanding. she makes it easy to learn from her.
7	Professor Brahe ran the course very smoothly and she was very organized. I learned a lot, especially APA format.
8	Professor Brahe was great. She answered any questions when I was confused. She help clarify my APA. She was very kind as well.
9	I don't feel like this rating is specific to this mentor, more so the courses for this program as a whole.
10	Enhanced my apa skills as well as research methods
11	Dr. Brahe was clear in her expectations, she followed her provided rubric, and despite never meeting her outside of the written word, I found her to be funny and engaging. She has a lot of work to grade in a very short amount of time and I appreciate the time she takes to give thought-provoking critiques.
12	Dr. Brahe is an excellent mentor! I could tell from day 1 that she truly enjoys teaching. I appreciate how quickly she responded to any questions or concerns I had. I also applaud how quickly she graded our assignments. It is clear Dr. Brahe is passionate about her work, as well as her students work and their overall success. Thank you, Dr. Brahe! I truly enjoyed your class.
13	Dr. Brahe is very caring and passionate about teaching.
