21 - Strengths of the instructor

Victoria Brahe

- She is an amazing instructor. Anytime I needed clarification on anything (content, paper), she would usually give me a feedback within 24 hours. Her feedback is fair and understandable. I felt I really enjoyed learning all these concepts because of how she made it "easy" for the students to get it.
- One of the many strengths of Dr. Brahe was that I appreciate is the fact that she is an interactive professor that engages in the classroom and discussion boards. Dr. Brahe challenges the students to work at their highest potential. Although this semester was a bit of a struggle I appreciated her honesty when it came to my assignments. As I kick and scream that I will not take her classes anymore I appreciate the challenge and look forward to taking another one of her classes.
- Responded very quickly. Always available for feedback and questions. Returned assignments back in a timely manner. Very friendly.
- Dr. Brahe went beyond and above to help me succeed in this course. She provided detailed instructions, study aides, power points, APA format quick guide and an enormous amount of her time outside of the classroom and on ask the instructor to answer all of my questions!!! I have a real passion for research and may have been a bit more inquisitive than most of my classmates because I find the subject matter so intriguing. I want to express a great amount of gratitude to Dr. Brahe for a wonderful learning experience. Her positivity and knowledge for research is amazing!!! I am glad SXU has Dr. Brahe teaching research to the graduate students.
- Always made herself available and had great feedback that really promoted a better understanding of the subjects and assignments.
- knowledge, quality feedback, high standards, willing to work with students, available,
- She is very reliable, always willing to help in anyway possible. She really cares that we learn the information in the course. She does a very good job with organizing the class and is very quick to respond to questions when asked. I greatly enjoy being in her classes.
- Great content provided. Enjoyed the weekly announcements and journal articles.
- Fantastic instructor. Was always quick to reply to message and encourage questions. Assisted in learning - even though on line - greatly.
- Provided helpful hints and instructions. Responded for questions in a timely manner. Provided details about the grading. Encouraged the students to go forward. Excellent teacher!

22 - Suggested improvements for the instructor

Victoria Brahe

- NONE. D.Brahe is fair and is the APA format guru.
- I cannot think of any.
- can't think of any
- NA
- I can't ask for anything more.....

23 - Strengths of the course

- Professor
- Strengths of the course: -the Polit & Beck and the Brown textbooks really helped me to complete assignments and discussion posts. They were easy to comprehend. -the Polit & Brown power points were very helpful for summarizing the chapters -the SSR and guideline team assignments were great learning experiences, I really enjoyed them and working one on one with other classmates. -I loved the APA format quick guide provided for us. It was a very useful tool. -I loved the idea of building on prior assignments, applying feedback and applying what I have learned to complete the final course assignment. That was one of the best learning experiences of the course. -most of all, having an accommodating, positive and patient instructor makes for a perfect learning environment.
- I learned more from this course than most.
- teacher
- Course was designed in such a way that it helped us to go forward in a step -by step manner.

24 - Suggested improvements for the course

- I think the powerpoint is extra for us to do after a big paper.
- NONE
- I cannot think of any. Dr. Brahe, thank you for taking the time to teach me such an important graduate class.
- Assignments extremely time consuming and challenging. Probably should be a stand-alone course.
- N/A
- Have poster and paper due at the same time.
- I was asked to purchase books with access code, but never used it. So for future, if the access code is not going to be used, please make it clear so that students can purchase/rent books at a cheaper rate.
