Q12 - What did you find most useful about this course?
Response Rate: 100.00% (9 of 9)

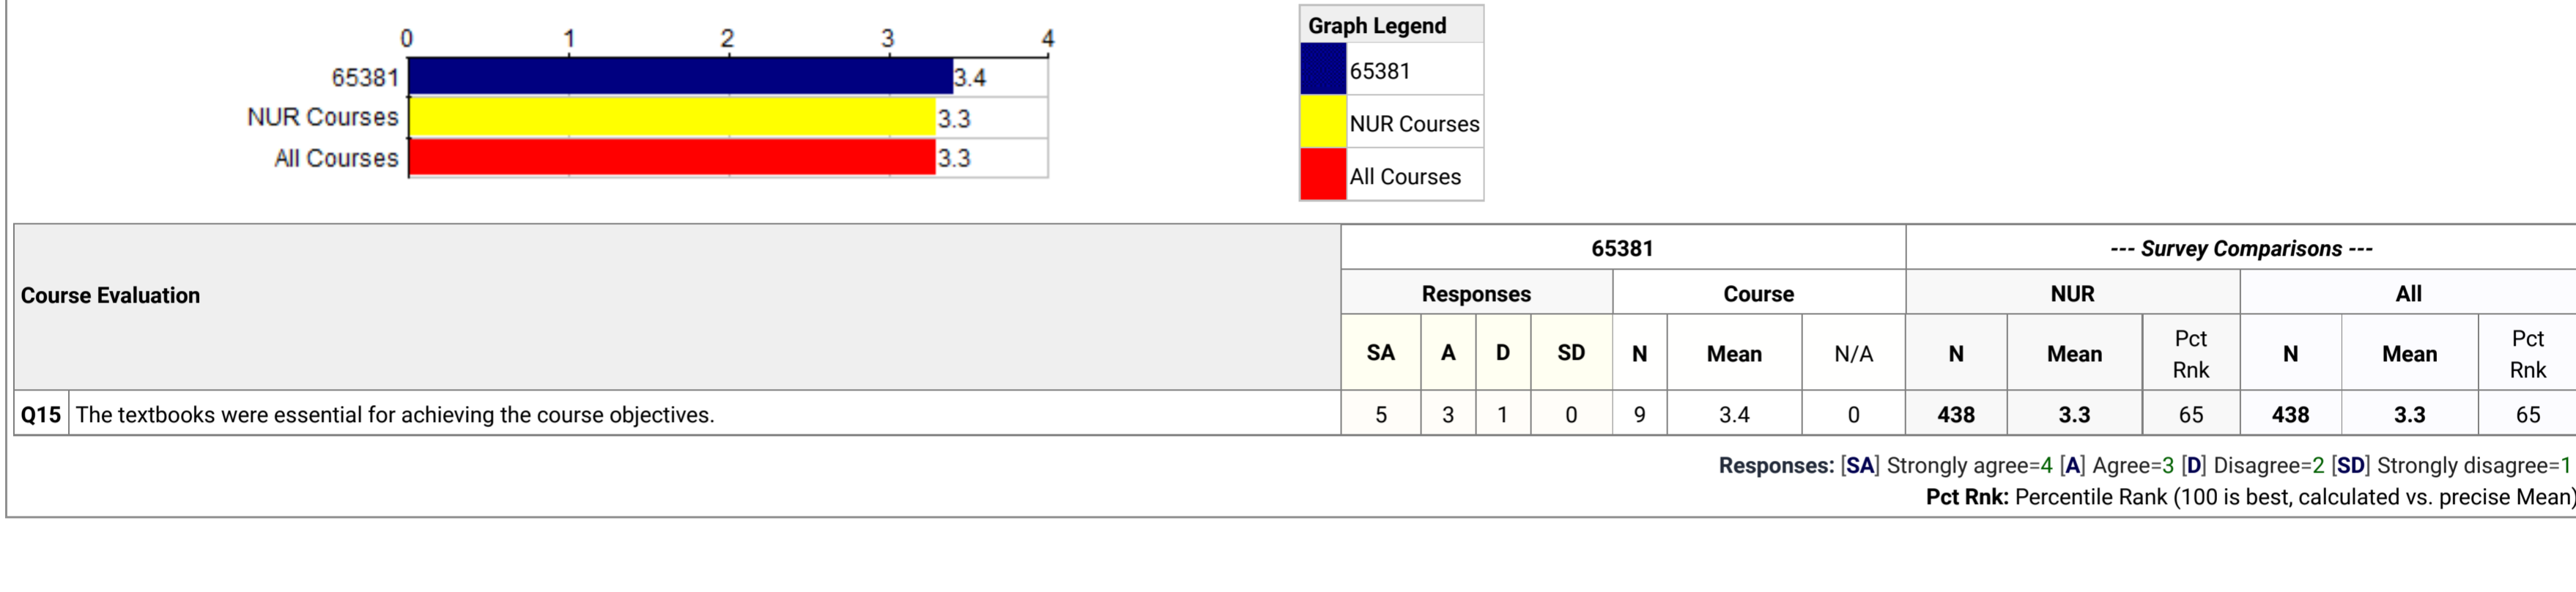

- written assignment and developing the e-portfolio
- reflecting on past experiences in a new light
- it will help me with furthering my degree
- The written assignments came with formats that made it easy to follow
- The e-Portfolio assignment.
- Reflection on prior experiences allowed me to see how I've grown throughout this program.
- Reflection and feedback from mentor
- Reflecting on past nursing experiences
- Professor Brahe was amazing. She was engaged and gave great constructive criticism that I was able to use to better myself.

Q13 - What recommendations do you have for improving this course?
Response Rate: 100.00% (9 of 9)

- none
- none
- none
- n/a
- We just found out that we should have been uploading graded course assignments to the e-Portfolio now, during our last course. Make the requirements more well known. Myself and my peers now have portfolios with only a couple of classes that have graded documents.
- None
- None.
- Make the on-line Syllabus accessible to students prior to starting the class. Usually the syllabus is accessible for all classes, however for NUR-445 is was not. I was not able to purchase textbooks in advance, because I did not know, which ones are needed. e-Portfolio assignment misunderstandings - grading on APA format and info about "not to exceed two page" - principally wrong. Need to correctly grading rubric for e-Portfolio assignment. Also, starting in the informatics class, e-Portfolio information must be correct. Following in all classes, the last discussion forum should be geared for the correct e-Portfolio submission from the present class with instructor's support. The importance of having instructor feedback on the title page of the written assignments need to be stressed, to prevent additional stress at in the NUR-445 class. Additionally, all mentors should agree what the Title page should include and on the short title and file name for each assignment. Some on-line resources need to be corrected as they direct to empty pages or the APA format of reference is wrong (all words with upper case in title).
- EPortfolio awareness. Although I uploaded assignments prior to final project I was not aware we needed to keep rubrics and grades so I didn't have them to add to my submission

Q26 - Please use the space below to provide constructive feedback regarding Nursing Office and College support.
Response Rate: 100.00% (9 of 9)

- none
- great support
- The scheduling of major updates in the last two weeks of a class is very stressful for students. We as nurses plan our work schedules 3 months in advance. I took vacation days for the week when the e-Portfolio was due, to learn, that the MODLE is down. Please do these updates at the beginning of the semester, not the end. Also, notify the students at the beginning of the semester about schedule maintenance.
- The program was well outlined in the student evaluation making it easy to complete the program requirements.
- Smarrthinking is awful compared with Turnitin. Turnitin gave you the opportunity to learn from your mistakes and correct them prior to submitting the assignment. Smarrthinking does not give you your report until you've already submitted your assignment. It is not helpful to the student at all.
- Professor Brahe was awesome! This course was the perfect end to my BSN journey.
- Please go back to Turn it In. SafeAssign is not user friendly and it does not let you review your results prior to submitting your assignment the way Turnitin did. I feel it sets students up for getting unnecessary points taken off their assignments.
- New format that replaced turnitin Safe Assign - took a little getting acquainted to
- Did not like safe assign at all. Turnitin was a learning tool where I was able to see where I might have made an error and corrected it. Safe assign gave no such opportunity and sited my references as part of my similarity score! How could I not use references? TESU needs to find another source for checking plagiarism.

Q6 - Please use the space below to provide constructive feedback regarding your mentor.
Faculty: Victoria Brahe
Response Rate: 100.00% (9 of 9)

- her feedback and guidance was invaluable!
- great mentor, very knowledgeable and helpful
- The mentor was very supportive and knew the subject well. Her grading was reasonable and she was very responsive to questions throughout the semester.
- The mentor provided excellent feedback, and was a great help throughout the course.
- Professor Brahe was one of the best professors I had the luck to have. I am thankful that I got to end my BSN journey with her help. She gives wonderful constructive criticism that helped me to grow as a student and as a professional.
- Professor Brahe is an amazing professor, very encouraging, caring & helpful. She was so helpful and provided great feedback for me all semester. If I needed help she answered within 12 hours at most. She is exactly the kind of professor everyone should have!!
- Dr. Victoria Brahe was very supportive and cared for our understanding of the material. She provided detailed constructive feedback, and was very helpful for class discussions and understanding of the written assignments. Written assignments mentored in NUR-445 were very useful and should be used in all nursing classes as well. Dr. Brahe is very knowledgeable and always willing to share her knowledge with students. She is one of the best mentors I met in TESU. Thank you.
- Dr. Brahe was extremely engaging and her feedback was helpful in completing this class. Always answered any concerns in a timely manner
- Dr. Brahe is a wonderful mentor. I hope to see her in my MSN courses.
